ERRORS & OMISSIONS CLAIMS

If a claim is made against you OR if you know of any possible claim situation for which you may be held responsible, whether actual or potential, immediately notify insuranceclaims@roanokegroup.com for instructions.

Critical Actions to Avoid

- Never make any payment
- Never assume any obligation
- Never incur any expense
- Never admit liability

These actions should never be taken unless first having consulted with and obtained approval from underwriters or their designated attorneys. Any payments made, obligations assumed or expenses incurred will not be reimbursed by this policy, unless approval was obtained from underwriters prior to the expenses being incurred. Making payments or accepting liability without the prior approval of underwriters may jeopardize your coverage under this policy.

Legal Services

Legal Services under this policy are provided only by law firms specifically assigned by underwriters, at their sole discretion. Any legal fees incurred without an underwriter's express prior authorization will not be covered under or reimbursed by this policy.

TRANSPORTATION LEGAL LIABILITY CLAIMS

BUSINESS INSURANCE CLAIMS

Property

In the event of a claim, notify us immediately in one of the following ways:

- Contact your local Customer Service Representative
- Login to PolicyTrack™ to report your claim

In addition, the following steps should be taken:

- Notify the police if a law may have been broken
- Take steps to prevent undamaged property from being damaged. This may involve moving property to a more secure area
- Keep a record of your expenses necessary to protect covered property
- Take photos of the damaged property
- Retain all damaged property (unless it presents a hazard)
- If the event is widespread, the local media may provide instructions on filing a claim with a state or federal agency. Do so after filing the claim with your insurance company

Commercial Liability

If someone is accusing you or your product of responsibility for an injury or other damage, the following steps should be taken:

- Contact your local service representative or login to PolicyTrack™ to report your claim
- Do not accept or admit responsibility or volunteer to pay for medical expenses or damages
- Record information about the incident as thoroughly as you can and advise the other party that you will report the claim to your insurance company
- Investigate internally for further information about the incident. Identify any witnesses to the incident, and any documentation involving the occurrence
- Promptly forward Summons and Complaints or attorney's demand letters to your claims representative

Auto Accidents

In the event of a claim, the following steps should be taken:

- Contact your local Customer Service Representative or call the insurance company at the number listed on your Auto ID card
- Do not admit liability even if you feel you were at fault
- The police should be notified if the accident occurred on a public road. If damage occurred, and the other party chose not to contact the police, you should notify them anyway
- Obtain information on the other vehicle and driver. Take a photo of their ID card
- Complete the motor vehicle report form you get from the police and send to the state (not to your insurance agent) to comply with Financial Responsibility Laws
- Follow the insurance company's instructions about inspection of the damage, where it can be repaired and any matters related to your claim

Workers' Compensation

Workers' Compensation claims should be reported to your insurer immediately. In your policy documents, instructions are included on how to file a claim. Generally, you are provided with a toll-free number to use for reporting.

Incidents involving serious injury (more than first aid) or time off from work must be recorded in a log which is available to OSHA inspectors should they visit your offices.

Like Commercial Liability, some level of investigation should be performed as to the circumstances of the claim:

- Investigate internally for further information about the incident. Identify any witnesses to the incident, and take a statement from them
- Record information about where the employee was treated
- Promptly forward hearing notices or attorney's letters to your broker
